1. Qualitative Information Related to Consolidated Performance for the Third Quarter of This Fiscal Year

(1) Operating Results

During the third quarter of this fiscal year (nine months ended June 30, 2021), Japan's economy remained in an uncertain situation due to the prolonged impact of the novel coronavirus (COVID-19) pandemic. However, we saw continuous signs of a recovery, such as increased exports boosted by growth in digital-related demand worldwide, particularly for semiconductors.

Given these circumstances, our Group strove to secure net sales and earnings by maintaining production to meet market requirements while continuing to take measures to prevent infections of COVID-19 and minimizing the risk posed on the business. Meanwhile, we continued proactive capital investment for the future with our sights on the post-COVID-19 world and promoted research and development that takes advantage of the Company's proprietary photonics technologies.

As a result, we closed the third quarter with net sales of JPY 121,866 million, up by JPY 18,611 million (18.0%) compared with the same period one year ago. From an earnings perspective, operating profit was JPY 23,488 million, up by JPY 7,388 million (45.9%), ordinary profit was JPY 23,589 million, up by JPY 6,924 million (41.6%), and profit attributable to owners of parent was JPY 17,881 million, up by JPY 5,705 million (46.9%) from the same period one year ago, resulting in an increase in both net sales and earnings year on year.

Operating results by segment are as follows:

(Electron Tube)

Regarding photomultiplier tubes (PMT), in the medical field, sales of products for nuclear medical imaging devices such as PET scanners declined due to the impact of COVID-19. However, sales for medical inspection and monitoring system applications such as polymerase chain reaction (PCR) and flow cytometry (FCM) increased in Japan and overseas amid growing demand. In addition, in the industrial field, sales for semiconductor inspection equipment increased, mainly overseas.

Regarding imaging devices and light sources, in the medical field, sales of dental use X-ray scintillators declined. However, in the industrial field, sales of Stealth Dicing Engine for high-speed, high-quality silicon wafer dicing and light sources for semiconductor wafer inspection equipment increased owing to a recovery in the semiconductor market. In addition, sales of microfocus X-ray sources for non-destructive testing increased, mainly in Asia, for circuit board inspection applications and automotive battery testing applications. As a result, the Electron Tube business closed the third quarter with net sales of JPY 46,928 million, up by 17.1%, and operating profit of JPY 16,078 million, up by 16.6% from the same period one year ago. (Opto-semiconductor)

Regarding opto-semiconductor devices, in the medical field, sales of flat panel sensors for dental use declined although sales are quickly recovering from the impact of COVID-19. On the other hand, sales of silicon photodiodes for X-ray CT remained upbeat owing to continued growth in demand in Japan and overseas. In addition, in the industrial field, sales of image sensors for semiconductor fabrication and inspection equipment increased due to the recovery and expansion of the semiconductor market.

As a result, net sales in the Opto-semiconductor business were JPY 56,406 million, up by 15.6%, and operating profit was JPY 16,211 million, up by 14.9% from the same period one year ago. (Imaging and Measurement Instruments)

In image processing and measurement systems, sales of X-ray line sensor cameras for food X-ray inspection applications decreased due to the effects of COVID-19. However, sales of board cameras for medical inspection and monitoring systems increased in North America. In addition, sales of digital slide scanners for remote pathologic diagnosis systems grew due to rising demand from inter-hospital networks outside Japan. As a result, net sales for the Imaging and Measurement Instruments business were JPY 14,950 million, up by 33.2%, and operating profit was JPY 3,262 million, up by 83.1% from the same period one year ago.

(Other)

Sales from other operations include the semiconductor laser business, hotel operations run by Iwata Grand Hotel Inc., a subsidiary, and business relating to the unique products of Beijing Hamamatsu Photon Techniques Inc., which is also a subsidiary.

In our other businesses, net sales were JPY 3,581 million, up by 12.7%, and operating profit was JPY 458 million, compared with an operating loss of JPY 685 million in the same period one year ago.

(2) Impacts of COVID-19 on Consolidated Operating Results

Regarding COVID-19, while we can see progress toward ending the pandemic with the rollout of vaccines, new variants have led to a resurgence of infections and the effect of the pandemic on consolidated operating results, though slight, continues to be present. Under such conditions, sales are performing at a higher level than the pre-pandemic levels with recovery and growth in the semiconductor market, strong sales for medical inspection and monitoring systems such as PCR, among other factors.

(3) Financial Conditions

Current assets increased by JPY 15,591 million from the end of the previous fiscal year, despite a decrease in accounts receivable (current assets - other) of JPY 3,048 million, mainly reflecting increases in cash and deposits of JPY 8,924 million and notes and accounts receivable - trade of JPY 7,045 million.

Non-current assets decreased by JPY 951 million from the end of the previous fiscal year, mainly reflecting a decrease in property, plant and equipment of JPY 1,239 million that resulted from a decrease in buildings and structures due to depreciation.

As a result, total assets at the end of the third quarter were JPY 286,255 million, up by JPY 14,639 million from the end of the previous fiscal year.

Current liabilities increased by JPY 2,422 million from the end of the previous fiscal year, despite a decrease in accounts payable - facilities (current liabilities - other) of JPY 3,042 million, mainly reflecting increases in current portion of long-term borrowings of JPY 2,970 million and provision for bonuses of JPY 2,090 million. Non-current liabilities decreased by JPY 3,648 million from the end of the previous fiscal year, mainly due to a decrease in long-term borrowings of JPY 3,029 million.

Total liabilities at the end of the third quarter were JPY 56,873 million, down by JPY 1,226 million from the end of the previous fiscal year.

Net assets at the end of the third quarter were JPY 229,382 million, up by JPY 15,866 million from the end of the previous fiscal year, mainly reflecting an increase in retained earnings of JPY 11,677 million as a result of reporting profit attributable to owners of parent and an increase in foreign currency translation adjustment of JPY 3,404 million.

(4) Projection for the Year

There is no change to the forecast of consolidated financial results for the fiscal year ending September 30, 2021, released on May 12, 2021.

We assume the yen/US dollar exchange rate will be JPY 105, the yen/Euro exchange rate will be JPY 125 and the yen/RMB exchange rate will be JPY 15.5.
