Consolidated Financial Results for the Third Quarter of Fiscal Year ending September 30, 2014 (Japanese GAAP)

Company name: Hamamatsu Photonics K.K. Stock code: 6965

Stock listing: Tokyo Stock Exchange First Section

URL: http://www.hamamatsu.com/ir/index.html

Representative: Akira Hiruma, President and Chief Executive Officer

Contact: Tadahiko Shimazu, Director and General Manager of Accounting Div. (Phone: +81-53-452-2141)

Scheduled date to file quarterly securities report: August 7, 2014

Scheduled date to begin dividend payments: -

Supplementary materials to the financial statements have been prepared: None

Presentation will be held to explain the financial statements: None

Note: All amounts are rounded down to the nearest million yen

1. Consolidated financial results for the nine months ended Jun. 30, 2014 (From Oct. 1, 2013 through Jun. 30, 2014) (1) Consolidated operating results

4. Others

- (1) Changes in consolidated subsidiaries (Changes in scope of consolidation) : None
- (2) Application of special accounting treatment for preparing quarterly consolidated financial statements: Yes
- (3) Changes in accounting principles, changes in accounting estimates, and changes in presentation due to revisions
 (a) Changes in accounting principles accompanying revisions in accounting standards: None
 - (b) Changes other than those in (a) above: None
 - (c) Changes in accounting estimates: None
 - (d) Changes in presentation due to revisions: None
- (4) Number of shares outstanding
- (a) Number of shares outstanding at end of period including treasury stock As of Jun. 30, 2014: 83,764,984 shares As of Sep. 30, 2013: 83,764,984 shares
- (b) Number of treasury stock at end of period As of Jun. 30, 2014: 3,370,597 shares As of Sep. 30, 2013: 3,370,195 shares
- (c) Average number of shares issued during the period Nine months ended Jun. 30, 2014: 80,394,608 shares Nine months ended Jun. 30, 2013: 80,394,936 shares

1.Qualitative Information Related to Consolidated Performance for the Third Quarter of this Fiscal Year

(1) Operating Results

During the third quarter of this fiscal year (nine months ended June 30, 2014) Japan's economy maintained its gradual recovery momentum. In spite of a drop in personal spending after the rush buying prior to the hike in consumption tax effected on April 1, 2014, the third quarter saw continued improvements in corporate earnings, capital investment, and employment.

Given these circumstances, our group pushed forward with research and development concerning light, sought to develop the products that address customer needs, and worked to increase net sales and earnings by maintaining aggressive sales activities.

As a result of the above factors, we closed the third quarter with net sales of JPY 82,912 million, up by JPY 8,200 million (11.0%), operating income of JPY 15,946 million, up by JPY 3,701 million (30.2%) and ordinary income of JPY 16,384 million, up by JPY 3,193 million (24.2%) over one year ago respectively. Net income was JPY 10,872 million, up by JPY 2,304 million (26.9%).

Performances by the segment are as follows.

(Electron Tube)

Sales of photomultiplier tubes (PMTs) increased, boosted by steady sales for nuclear medicine applications such as Positron Emission Tomography (PET) and higher sales for the academic sector, including deep sea neutrino experiments in foreign countries. However, sales in the industrial field declined.

In the light sources and imaging devices segment, sales in the medical field of X-ray scintillators for converting X-rays into visible light grew, primarily in North America. In addition, in the industrial field, sales of products such as xenon lamps for semiconductor inspection equipment were strong, while microfocus X-ray sources for non-destructive testing, which customers rate highly for their ability to obtain high-definition images, also saw higher sales.

In total, the Electron Tube business closed the third quarter with net sales of JPY 33,974 million, up by 5.1%, and operating income of JPY 12,616 million, up by 5.4% from the same period one year ago.

(Opto-semiconductor)

In opto-semiconductor devices, sales in the medical field rose as growth in sales of our core silicon photodiodes were driven by the recovery of demand and our flat panel sensors, which enjoy a strong reputation for features such as high definition and high resolution, continued to expand steadily centered on dental applications. Furthermore, in the industrial field sales of image sensors were boosted by higher demand for applications in semiconductor inspection equipment.

Net sales for this business were JPY 36,536 million, up by 19.0%, and operating income was JPY 12,238 million, up by 36.6% from the same period one year ago.

(Imaging and Measurement Instruments)

Sales of image processing and measurement systems rose supported by strong growth in sales of digital cameras in the field of life sciences and biology, and increased sales of X-ray TDI cameras, which are used in applications such as inspection of substrates for electronic devices and have earned a positive reputation for their high-speed operation. Sales of digital slide scanners in pathology also gained based on new product launches.

Net sales for this business were JPY 9,866 million, up by 2.9%, and operating income was JPY 1,486 million, up by 25.5% from the same period one year ago.

(Other)

Sales of other operations are primarily in the semiconductor laser business and hotel operations. Net sales were JPY 2,534 million, up by 21.3%, and operating income was JPY 272 million, up by 390.9% from the same period one year ago.

(2) Financial Conditions

Current assets increased by JPY 6,534 million from the end of the prior fiscal year. This mainly reflected increases in cash and deposits, up by JPY 3,497 million and increases in notes and accounts receivable-trade, up by JPY 1,056 million.

Noncurrent assets increased by JPY 7,077 million from the end of the prior fiscal year. This was mainly from an increase in property, plant and equipment, up by JPY 7,391 million as a result of an increase in construction in progress due to new plant construction.

Total assets at the end of the third quarter were JPY 211,889 million, up by JPY 13,611 million from the end of the fiscal year ended September 30, 2013.

Current liabilities increased by JPY 10,067 million from the end of the prior fiscal year. This was mainly from an increase in electronically recorded obligations-operating, up by JPY 3,080 million and an increase in current portion of long-term loans payable, up by JPY 2,995 million.

Noncurrent liabilities decreased by JPY 4,242 million from the end of the prior fiscal year, mainly because of a decrease in long-term loans payable, down by JPY 3,135 million.

Total liabilities at the end of the third quarter were JPY 49,716 million, up by JPY 5,824 million from the end of the fiscal year ended September 30, 2013.

Net assets were JPY 162,173 million, up by JPY 7,787 million, due mainly to an increase in retained earnings, up by JPY 6,685 million because of net income for the third quarter of this fiscal year, and an increase in foreign currency translation adjustment, up by JPY 1,053 million.

(3) Projection for the year

There is no change to the projection for the fiscal year ending September 30, 2014, released on May 12, 2014. We assume the applicable yen/US dollar exchange rate will be JPY 100 and the yen/Euro exchange rate will be JPY 140.
