## To partners delivering parts and materials to Hamamatsu Photonics K.K.

As interest grew on the part of society with respect to the environment and international environmental regulations were beefed up, Hamamatsu Photonics decided to formulate "Green Procurement Guidelines" and "Green Procurement Management Standard for Chemical Substances", and to promote involvement in environmental concerns. We ask our business partners for their understanding and cooperation in this effort, and to conform to these guidelines and standards when delivering products and materials to us.

### ■ Important information

October 1, 2020

We revised "Green Procurement Guideline" to 4th edition and "Management Standard for Chemical Substances" to 17th edition. With this revision, other documents and files for supplier survey were also changed.

Main points of this revision are followings;

#### Green Procurement Guideline

1. Added "conservation and effective use of water resources" as one of environmental protection activities that suppliers are expected to address.

#### Management Standard for Chemical Substances

1. Changed the name, threshold level and management classification for some of environmentally managed substances
2. Changed the "Table 1. & 3." in response to the above

Please refer each Revision Record for more information.

The latest forms and tools for survey are available in this website.

We will ask you the details for survey request by e-mail.

Green Procurement Guideline (V4.0) [41 KB/PDF] 📄

Management Standard for Chemical Substances (V17.0) [251 MB/PDF] 📄

Revision Records (V17.0) [80 KB/PDF] 📄

## Request for cooperation in supplier surveys

We would like to ask suppliers to answer below four surveys to your parts and materials delivered to us. We will forward the survey request by email separately.

- Non-inclusion Warranty for Banned and Restricted Substances
- Non-use Certificate for Ozone-Depleting Substances in process\*
- Non-use Certificate for Chlorinated Organic Solvent in process\*
- Chemical Substances Survey(chemSHERPA, VT62474[ex JGPSSI], JAMP)

\*Please submit only when we ask in our survey request

## Survey tools

Please download the below files and use for your answer to supplier surveys.

Non-inclusion Warranty for Banned and Restricted Substances (V17.0) [72 KB/XLS] 📄

Non-use Certificate for Ozone-Depleting Substances in process (V8.0)[84 KB/XLS] 📄

Non-use Certificate for Chlorinated Organic Solvent in process (V8.0) [71 KB/XLS] 📄

Guidance on Green Procurement Survey by using chemSHERPA [1 MB/PDF] 📄

## Notes on using survey tools

- Concerning format for chemical substances survey, we will make the shift to chemSHERPA from VT62474 and JAMP. For the transitional period, we will ask you to survey with designating format by e-mail.
- Please refer to tools and manuals in each website.
